## **E- Notes on summarized half-year consolidated financial statements**

(All entries are in €K unless otherwise noted.)

### **1) *General information***

The financial statements were approved by the Board of Directors on September 21, 2016. Guillemot Corporation is a designer and manufacturer of interactive entertainment hardware and accessories. The Group offers a diversified range of products under the Hercules and Thrustmaster brand names. Active in this market since 1984, the Guillemot Corporation Group is currently present in 11 countries (France, Germany, the UK, the United States, Canada, Belgium, the Netherlands, China [Hong Kong], Spain, Romania and Italy) and distributes its products in more than sixty countries worldwide. The Group's mission is to offer high-performance, ergonomic products which maximize the enjoyment of digital interactive entertainment end users.

The company is a joint stock company with its registered office at Place du Granier, BP 97143, 35 571 Chantepie Cedex.

### **2) *Basis for preparation of summarized half-year financial information***

This summary of half-year consolidated financial statements at June 30, 2016 has been prepared pursuant to the IAS 34 standard, Intermediate Financial Accounting. The summarized half-year report must be read along with the annual financial statements for fiscal 2015.

### **3) *Accounting methods***

The accounting methods employed are the same as those adopted for the preparation of the annual financial statements for the fiscal year ended December 31, 2015, as presented in the annual financial statements for the fiscal year ended December 31, 2015.

No new IFRS standards will take effect for the first time as of January 1, 2016: only a few amendments will be applicable for fiscal years beginning in 2016. These amendments were adopted by the European Union in different regulations, published in November and December 2015.

The IFRS standards in question are the following:

- IAS 1 ("Presentation of Financial Statements").
- IAS 41 ("Agriculture") and IAS 16 ("Property, Plant and Equipment"). These amendments relate to "bearer biological assets".
- IAS 38 ("Intangible Assets") and IAS 16 ("Property, Plant and Equipment"). The amendments relate to acceptable amortization methods.
- IAS 19 ("Employee Benefits").
- IAS 34 ("Interim Financial Reporting").
- IFRS 5 ("Non-Current Assets Held for Sale and Discontinued Operations").
- IFRS 7 ("Financial instruments: Disclosures").
- IFRS 11 ("Joint Arrangements"), for amendments relating to "accounting for the acquisition of interests in joint undertakings".

These standards, amendments to existing standards and interpretations have not had a significant impact on the Group's financial statements.

Application of IFRIC 21 (“Levies imposed by a public authority”):

A public authority has the power to levy taxes on an entity. The question relates to the recognition date of a liability linked to the payment of levies, other than income tax, pursuant to IAS 37 (“Provisions, Contingent Liabilities and Contingent Assets”). A liability for payment of a levy cannot be accounted for in interim financial statements, if there is no present obligation on the closing date of the interim period.

The impacts relating to the retrospective application of the IFRIC 21 interpretation (“Levies imposed by a public authority”) are as follows:

- Shareholders’ equity at 01/01/2015: €+27K.

#### 4) *Report on activities*

The Guillemot Corporation Group’s financial statements at June 30, 2016 are broken down as follows:

\*\* Financial income includes the cost of net financial indebtedness, as well as other financial expenses and revenues.

#### Activity

During the first half of fiscal 2016, the Group posted sales of €20.5 million, down 4%, with 11% sales growth for Hercules digital devices to €3.9 million, and a 6% decrease in terms of sales of Thrustmaster gaming accessories to €16.4 million. Sales of racing wheels, which drive Thrustmaster’s activity, decreased over the first half of the year, not benefiting from the launches of major new games, contrary to the previous fiscal year.

#### Results

Over the period, the Group posted an operating loss of €3.2 million, the increase in which was due to increased marketing and sales-related investments over the year’s first half, as well as lower Thrustmaster sales.

During the first half of the year, this resulted in a stronger presence at large international trade shows dedicated to the Group's product lines, in preparation for the run-up to the end of the year. All of these investments in terms of personnel, marketing and sales-related costs resulted in an overall increase of €1.1 million in costs for the first half of fiscal 2016. At the same time, the postponed launches of major titles in terms of car racing and flight simulation games on consoles and PC, originally scheduled for the first half of 2016, had the effect of a drop in demand for simulation accessories and lower sales, resulting in a decrease with respect to the Group's gross margin of €0.7 million.

Financial income amounted to €+2.8 million, owing to the higher share price of Ubisoft securities and the disposal of the remainder of Gameloft securities.

Over the period, consolidated net income was €-0.9 million.

### **Main balance sheet elements:**

(in € millions)	30/06/2016	31/12/2015
Shareholders' equity	24.5	25.2
Inventories	17.0	17.3
Net indebtedness (excluding MIS)*	13.7	6.1
Current financial assets (MIS share)	14.7	12.2

\* Marketable Investment Securities are not taken into account in calculating net indebtedness.

The Group's shareholders' equity amounted to €24.5 million at June 30, 2016. Its Gameloft shares were sold at €8 each during the first half of the year, resulting in a net disposal gain of €132K. The net unrealized gain at June 30, 2016 amounted to €2.8 million for the Ubisoft Entertainment shares held by the Group. At June 30, 2016, the Group's net indebtedness excluding Marketable Investment Securities stood at €13.7 million, linked to the one-off increase in terms of working capital requirements as a result of higher inventory levels, with most end-of-year purchases having already been anticipated at this date.

### **Flagship products for the end of the year**

The Group has structured its end-of-year activities around the following products:

#### **❖ Thrustmaster**

- **Racing wheel ranges:** The Group has extended its lines of console racing wheels with the springtime launch of the TMX wheel for the Xbox One® console, which will be joined toward the end of the year by a limited-series TMX PRO version for some large customers. They are set to benefit from the launch on September 27 of the highly-anticipated game Forza Horizon 3. Two new Gran Turismo-licensed racing wheels were underway to accompany the latest version of the game upon its release, including a very high-end flagship wheel for the brand, which was unveiled at the announcement of the game GT Sport in London in May. The game's postponement until 2017 will result in a delayed launch for this wheel.

This year's crop of car racing games, while not quite as strong as initially anticipated, will nevertheless feature exciting new titles thanks to the upcoming launches of WRC 6, Forza Horizon 3 and Sony's Driveclub VR for PlayStation®VR, in particular.

➤ Joystick range: Thrustmaster will be launching a complete line of simulation accessories toward the end of the year, including a rudder, throttle and joysticks (T.16000M FCS HOTAS, TFRP and T.16000M FCS), for PC and virtual reality games.

❖ **Hercules**

➤ DJing range: The new Hercules P32 DJ controller, featuring 32 digital pads allowing users to spice up their mixes with samples on the fly, was launched in the spring and will gain momentum in the latter part of the year. This controller excelled in a competition against the biggest brands in the sector, winning the DJ Mag Tech Award for the best controller under £600: the magazine also went out of its way to highlight the perfect match between the controller and its DJUCED™ 40° software, published by the company. The new DJControl Instinct P8, launched in September, lets beginner DJs get started in the world of remixing thanks to its eight pads.

➤ Wireless speakers range: A new outdoor model will very soon be added to Hercules' line of water-resistant speakers. It will be the perfect companion for the new iPhone® 7, which will feature water resistance for the first time.

**Prospects**

The consoles market is set to be very dynamic in the run-up to the end of the year thanks to deliveries of Microsoft's new Xbox One® S console, and the launches of the new Sony PS4 Slim and PS4 Pro consoles – which will be accompanied by the PlayStation®VR virtual reality headset.

The postponement of the game GT Sport until 2017 obliges the Group to delay the launch of its Gran Turismo-licensed flagship racing wheel, originally set for release in late 2016, until next year as well.

The Group now forecasts sales in excess of €60 million for the fiscal year.

There is no amortization of excess fair market values under the IFRS standards. Pursuant to the IAS 36 standard, losses in value during previous fiscal years are not recovered at a later date.

One of the hypotheses employed at December 31, 2015 for calculating future discounted cashflow for the Hercules cashflow generating unit is a 15% increase in sales for 2016 in relation to 2015.

Hercules has been impacted over the past few years by the decline of the traditional PC market, and by the ending of its Wi-Fi and PLC product lines. The brand's refocusing of its activities on audio products is underway, and does not call into question the medium-term prospects for Hercules-related activities. The emergence of smartphones and of mobile uses for music represents a fundamental shift, for which Hercules has been preparing itself in recent years by deploying its Research and Development teams to focus on these new markets. These efforts have already resulted in the brand receiving five innovation prizes at the last three editions of the prestigious CES trade show in Las Vegas. These international awards, highly coveted within the IT industry, bear witness to the Hercules brand's ability to create increasingly unique and innovative solutions. This refocusing of activities on audio products buoys the Group with respect to its hypotheses.

At June 30, 2016, the excess fair market values entry on the balance sheet was composed solely of a net amount of €888K corresponding to the fair value of Hercules goodwill from the subsidiary Hercules Thrustmaster SAS.

## 8) *Intangible and tangible fixed assets*

### a) Intangible fixed assets

Intangible fixed assets are broken down as follows:

<b>Gross values</b>	<b>31.12.15</b>	<b>Scope mvt</b>	<b>Increase</b>	<b>Decrease</b>	<b>Forex adjustment</b>	<b>30.06.16</b>
Brands	10,842					10,842
Development costs	4,654		753	30	-2	5,375
Development costs under construction	1,473		694	770	-2	1,395
Licenses	2,418		86			2,504
Concessions, patents...	875		2		11	888
Other intangible fixed assets	950		3		20	973
<b>TOTAL</b>	<b>21,212</b>	<b>0</b>	<b>1,538</b>	<b>800</b>	<b>27</b>	<b>21,977</b>

With respect to development costs, projects meeting the 6 eligibility criteria set out in the IAS 38 standard are capitalized. The switch from fixed assets under construction to fixed assets (development costs) takes place when the asset is put into production. Development costs capitalized over the period amounted to €36K in net value. Guillemot Corporation Group companies that produce development costs are Hercules Thrustmaster SAS, Guillemot R&D Inc., Guillemot Romania Srl and Guillemot Corporation (HK) Limited. Capitalized costs relate to all product lines for the Hercules and Thrustmaster brands. The increase of €86K in the Licenses heading relates to the accounting for a new minimum guarantee with respect to assets, with no cash impact.

<b>Amortization and provisions</b>	<b>31.12.15</b>	<b>Scope mvt</b>	<b>Increase</b>	<b>Decrease</b>	<b>Forex adjustment</b>	<b>30.06.16</b>
Brands	8,110					8,110

Concessions, patents...	811		26		10	847
Other intangible fixed assets	946		2		20	968
<b>TOTAL</b>	<b>14,131</b>	<b>0</b>	<b>782</b>	<b>0</b>	<b>30</b>	<b>14,943</b>

Brands include the Thrustmaster and Hercules brands acquired. These brands are subject to depreciation tests at each closing of accounts and are valued taking into account future discounted cashflow.

In the absence of a deep market for the brands in our sector of activity, the fair value method is not applied for valuation of brands held by the Group.

The going value is the discounted value of future cashflow expected from an asset, which is to say of its continued use and removal at the end of its usefulness. This method is used for the valuation of brands.

The Hercules brand is assigned to the Hercules cashflow generating unit.

The Thrustmaster brand is assigned to the Thrustmaster cashflow generating unit. The Thrustmaster brand has a net balance sheet value of €1,300K against an acquisition cost of €9,410K, while the Hercules brand stands at €1,432K against an acquisition cost of €1,432K.

The 6% decrease in sales observed over the first half of 2016 and the revision of forecasts for the fiscal year represents an indication of an impairment loss. The application of an impairment test at June 30, 2016 did not show an impairment loss.

Pursuant to IAS 36, forecasts are made over five years with a terminal value.

The hypotheses used in calculating future discounted cashflow for the Thrustmaster cashflow generating unit are the following:

- Operational cashflow to sales ratio of 5%.
- Forecasts applied to a five-year business plan with stable average sales over the period.
- 12% discount rate.

Valuation of the Thrustmaster brand presents an adjustment risk over the years to come, in the event whereby the hypotheses employed for future cashflow generated by Thrustmaster activities are revised either upward or downward.

Thrustmaster's strong growth in 2015 and prospects for profitability may result in a provision reversal in the two coming years, should the forecasts be confirmed.

Thrustmaster has acquired worldwide renown and is now the market leader with respect to racing wheels for PC and consoles, the installed base of which continues to expand.

The 2016 launches of virtual reality headsets and the growth of Thrustmaster's racing and flight simulation ecosystems should allow the brand to meet its growth forecasts.

The maximum potential impact on the Group's statement of income would be €+8,110K in the event of the complete reversal of the provision on the Thrustmaster brand.

There was no revision in the book value of the Thrustmaster brand at June 30, 2016.

b) Tangible fixed assets

Tangible fixed assets related to operations are broken down as follows:

<b>Gross values</b>	<b>31.12.15</b>	<b>Scope mvt</b>	<b>Increase</b>	<b>Decrease</b>	<b>Forex adjustment</b>	<b>30.06.16</b>

<b>TOTAL</b>	<b>459</b>	<b>0</b>	<b>39</b>	<b>50</b>	<b>-1</b>	<b>447</b>

The movements on other fixed securities relate to the liquidity contract currently in place. Assets assigned to the liquidity account amounted to €300,000 in cash at June 30, 2016.

Other financial fixed assets relate to deposits and guarantees paid out.

Current financial assets include Ubisoft Entertainment shares.

Ubisoft Entertainment shares (listed on an active market) are valued at their fair value pursuant to the IAS 39 standard. These shares were classified in the financial assets category, valued at their fair value as hedging for income during the switch to IFRS standards.

At June 30, 2016, the Group held 443,874 Ubisoft Entertainment shares, representing 0.39% of capital.

The share prices used at December 31, 2015 were €26.67 for Ubisoft Entertainment shares and €6.06 for Gameloft shares. The share price used at June 30, 2016 for the valuation of shares at their fair value was €33.01 for Ubisoft Entertainment shares. Gameloft shares were disposed of during the first half of the year at €8 each, resulting in the posting of a net disposal gain of €132K. The net unrealized gain posted at June 30, 2016 amounted to €2,814K for Ubisoft Entertainment shares held (see point 16).

Inventories include electronic components and subsets as well as finished products. Provisions are made when the value of inventory is greater than its probable sales price. The net inventory value amounted to €17,036K at June 30, 2016.

## 11) Shareholders' equity

This capital is composed of 15,004,736 shares with a nominal value of €0.77 each.

The company Guillemot Corporation S.A. holds 292,552 treasury stock shares. These treasury stock shares are deducted from shareholders' equity for an amount of €748K.

At June 30, 2016, the percentage of capital represented by treasury stock shares was 1.94%.

Maximum potential number of shares to be created:

The first six stock option plans have been nullified.

The Group has put in place remuneration plans denominated in shareholders' equity instruments (options on shares). The fair value of the services rendered by employees in exchange for the granting of options is accounted for as expenses. The total amount accounted for as expenses over the acquisition period of rights is determined by reference to the fair value of the options granted, without taking into account the conditions of acquisition of rights, which are not market conditions. The conditions of acquisition of rights which are not market conditions are integrated into the hypotheses on the number of options which may become available for exercise. At each closing date, the entity re-examines the number of options which may become available for exercise. If need be, the Group posts in its statement of income the impact of the revision of its estimates as hedging for a corresponding adjustment to shareholders' equity.

The number of potentially exercisable options takes into account the exercise terms for options proper to each plan.

Pursuant to the IFRS 2 standard regarding share benefits, stocks options have been valued at their fair value according to the Black & Scholes method. No charges were posted for the first half of fiscal 2016, with all plans being amortized.

### 12) Provisions for liabilities and expenses

Provisions for liabilities and expenses are broken down as follows:

	Increases		Used	Decreases	Forex	
	31.12.15	30.06.16	30.06.16	Unused	adjustments	30.06.16

<b>TOTAL</b>	<b>337</b>	<b>5</b>	<b>38</b>	<b>0</b>	<b>12</b>	<b>316</b>

### 13) Personnel commitments

The Group has no other post-retirement benefits programs other than the legal program stipulated by the collective agreements which govern the Group's employees.

A provision is calculated using the method of projected credit units, based on retirement benefits at time of retirement according to seniority. (These are the benefits which will be due to the employee at the time of his or her retirement.)

The main actuarial hypotheses have not changed in relation to those employed at December 31, 2015.

At June 30, 2016, the provision posted amounted to €660K.

Pursuant to the revised IAS19 standard applicable retrospectively as of January 1, 2013, all actuarial gains and losses are now accounted for under OCI (Other Comprehensive Income), and no longer under net income. The impact on the Group's shareholders' equity at June 30, 2016 was €26K.

## 14) Loans

Financial liabilities are broken down as follows:

		Current (within 1 year)			Non-current (1 year +)	
	30.06.16	0-3 months	3-6 months	6-12 months		31.12.15
Financial institution loans	5,767	960	625	1,254	2,928	7,682

The Group has fixed-rate loans with financial institutions worth €5,902K and variable-rate loans worth €8,919K. The Group has put in place rate swap contracts on variable-rate loans (amounting to €210K at June 30, 2016) to protect itself against shifts with regard to loan interest payments, linked to changes in interest rates. At June 30, 2016, a loan in the amount of €1,125K was covered by an acceleration clause. The obligation to be respected is the following: Adjusted indebtedness / Shareholders' equity  $\leq 1$  (Based on the annual financial statements of Guillemot Corporation S.A.). This obligation was respected at June 30, 2016.

Over the period, the Group reimbursed €1,916K in bank loans.

Net indebtedness	30.06.16	31.12.15
Financial liabilities	14,821	11,052
Shareholders' current accounts	972	1,396

## 16) *Operating income*

Operating income at June 30, 2016 amounted to €-3,189K, compared with €-1,394K at June 30, 2015.

## 17) *Financial income*

The net gearing cost stood at €114K at June 30, 2016. This includes interest charges and financial charges related to loans, as well as Forex losses and gains linked to the settling of financial liabilities.

Other financial revenues and expenses are broken down as follows:

### **Forex effect linked to currency conversion of subsidiaries:**

All subsidiaries conduct business in their local currency, and the impact on shareholders' equity was €+149K.

### **Financial risk:**

Pursuant to the IFRS 7 standard on financial instruments, the Group details hereafter its exposure to different financial risks:

**Liquidity risk:** At June 30, 2016, the Group had not used all of its loan and banking facilities and its net indebtedness was €13.7 million. The Group held a portfolio of marketable investment securities worth €14.7 million in fair value at June 30, 2016.

**Stock market price variation:** The stock market price change on shares held impacts on the Group's income. For the second half of fiscal 2016, a 10% decrease in the price of Ubisoft Entertainment shares (in relation to the price at June 30, 2016) would have an impact of €-1.5 million on financial income.

Market rates variation: A 1% increase in interest rates taken on an annual basis and considering the balance at June 30, 2016 (the amount of variable rate financial liabilities) would have the impact of an increase in financial expenses of €87K.

Exchange rates variation: The breakdown of the Group's assets and liabilities at June 30, 2016 was as follows (the position is given for non-covered amounts, which is to say those subject to currency variations).

Amounts of currencies exposed to positive or negative exchange variations:

(In €K)	USD	GBP
Assets	7,103	38
Liabilities	10,762	23
Net position before management	-3,659	15
Off-balance-sheet position	0	0
Net position after management	-3,659	15

A 10% increase in the rate of the U.S. dollar, taken on an annual basis and considering the amount outstanding at June 30, 2016 (the amount of currencies exposed to exchange variations) would have the impact of an increase in financial expenses of €330K.

As all of the major players in the multimedia industry conduct transactions in U.S. dollars, there is no competitive advantage between one manufacturer and another translating into increased market share. As a result of the indexation of sale prices to dollar cost prices by all players in the industry, sales prices are either increased or decreased as a function of overall cost prices.

The main currency for hardware and accessory purchases is the U.S. dollar. In the United States, Canada and all other countries outside of Europe, the transaction currency is also the U.S. dollar. In Europe, the Group sells mainly in euros. Rapid currency variations and dips in the value of the U.S. dollar in particular may result in lower sale prices for the Group's products and consequently impact on the value of merchandise inventories. Conversely, a strong and rapid increase in the value of the U.S. dollar over the second half of the year would not allow the Group to offset this increase in full on the sale prices of its products, given the seasonal nature of the company's activities, and could result in a temporary impact on gross margins.

However, in order to limit the Group's currency risk, Guillemot Corporation covers currency fluctuation risks by way of spot purchases, forward purchase agreements and foreign currency options.

Moreover, the increase in export sales seen over the past several years strengthens the Group's natural coverage, and significantly decreases the currency risk.

Credit risk: Credit risk represents the risk of financial loss in the event whereby a client does not meet its contractual obligations. The Group has access to credit insurance to deal with this risk. The number of customers is relatively low, as a result of the Group's dealings with wholesalers. In some cases, the Group is obliged to grant additional credit where coverage is judged to be particularly ill-suited.

## 18) *Corporate income tax*

### a) Income tax assets

At June 30, 2016, this heading contained an Employment Competitiveness Tax Credit (Crédit d'Impôt Compétitivité Emploi – France) for a total of €149K, and a Research Tax Credit (Crédit Impôt Recherche – France) for €185K.

On the statement of income, these tax credits were accounted for as a deduction from personnel expenses.

### b) Income tax expenses

Income tax expenses are broken down as follows:

	30.06.16	30.06.15
Deferred tax	438	0
Income tax payable	28	42
<b>TOTAL</b>	<b>466</b>	<b>42</b>

Income tax payable corresponds to the total income taxes of all Group companies.

Deferred tax is calculated based on temporary differences relating to tax adjustments, consolidation adjustments and tax loss carry-forwards.

At June 30, 2016, no deferred tax assets were posted for any of the Group's subsidiaries, the probability of future taxable income not yet having been fully established.

On the balance sheet, the Deferred tax liabilities heading amounted to €1,154K at June 30, 2016, compared with €715K at December 31, 2015. The increase in this category corresponds to the tax effect of the revaluation of the unrealized gain on the Group's portfolio of Ubisoft Entertainment securities.

The Group had access to tax loss carry-forwards totaling €64 million at the end of December 2015, including €61 million for the parent company Guillemot Corporation S.A.

## 19) *Discontinued operations*

The Group has not discontinued any operations over the past five years.

## *21) Off-balance-sheet commitments*

Rental commitments:	€769K
Documentary credits:	€962K

## *22) Transactions with associated parties*

The Group's capital is held by the company Guillemot Brothers S.E. (19.99%), the Guillemot family (52.95%), Guillemot Corporation S.A. (1.95%) and public shareholders (25.11%).

The associated parties are the company Guillemot Brothers S.E. and members of the Guillemot family controlling the issuer, the Group's consolidated subsidiaries (cf. scope of consolidation at note 5) and the Ubisoft Entertainment Group, an entity in which members of the Guillemot family hold significant voting rights.

The Gameloft Group is no longer included among the associated parties, following the disposal of shares by members of the Guillemot family during the first half of fiscal 2016.

The company Guillemot Corporation S.A. has benefited over the course of previous fiscal years from current account waivers in the total amount of €7.7 million on the part of the founders of the Group's parent company and of the company Guillemot Brothers S.E.

€972K remains on the balance sheet in shareholders' current account advances, to be reimbursed over the coming years with the stipulation that reimbursement may not exceed 20% of the parent company's annual net income.

**23) *Seasonal nature of activities***

In principle, the Guillemot Corporation Group carries out 50% of its annual activities between September and December. The Group employs the services of subcontractors in order to cover increased activity in terms of production and logistics during this period. Working capital requirements caused by these seasonal fluctuations are financed by way of short and medium-term funding.

**24) *Post-closure events***

There were no post-closure events.

## **F- Independent Auditors' report on 2016 half-year financial information**

To Shareholders of

***Guillemot Corporation S.A.***

Place du Granier

BP 97143

**35571 Chantepie Cedex**

Ladies and Gentlemen,

In carrying out the tasks which were entrusted to us by your general meeting and pursuant to Article L. 451-1-2 III of the Monetary and financial code, we have conducted:

- A limited examination of the summarized half-year consolidated financial statements for the company Guillemot Corporation S.A., relating to the period from January 1 to June 30, 2016, as appended to this report;
- Verification of the information provided in the half-year report on activities.

These summarized half-year consolidated financial statements were prepared under the authority of the Board of Directors. It falls to us, based on our limited examination, to express our conclusion regarding these statements.

### **1. Conclusion regarding financial statements**

We have carried out our limited examination according to professional standards applicable in France. A limited examination mainly consists of meeting with members of management in charge of accounting and financial aspects, and the implementation of analytical procedures. These tasks are less exhaustive than those required for an audit carried out according to French professional standards. Therefore, the assurance that the financial statements, taken in their entirety, do not contain significant anomalies, obtained within the context of a limited examination is a moderate assurance, less thorough than that obtained in the context of an audit.

On the basis of our limited examination, we have uncovered no significant anomalies causing us to call into question the conformity of the summarized half-year consolidated financial statements with the IAS 34 standard – IFRS reference standard as adopted in the European Union relating to interim financial reporting.

### **2. Specific verifications**

We have also proceeded with verification of the information provided in the half-year report on activities commenting upon the summarized half-year consolidated financial statements upon which we have based our limited examination. We have no observations to offer with respect to the sincerity of the information or its concordance with the summarized half-year consolidated financial statements.
