DJUCED
BOOST YOUR MIX

Significant events in fiscal 2017

1. The Group's annual turnover grew by 25%, to €80.4 million

- ❖ Current operating income: €3.9 million
- ❖ Consolidated net income: €17.5 million
- ❖ Net indebtedness: €1.2 million

2. More strong licensing partnerships

The strength of the Group's licensing partnerships, including with respect to the game Gran Turismo®, has boosted the global prospects for its product lines.

- ❖ Hercules partnered with the high-resolution Qobuz music streaming service.
- ❖ Ferrari expanded its partnership with Thrustmaster to include gaming headsets.
- ❖ Thrustmaster signed a new partnership deal with Sparco®, the world-famous motor sports equipment manufacturer.

3. Commercial deployment policy

The Group's commercial deployment policy resulted in growth of 66% in the Asia-Pacific region and 30% in the Americas, which now account for 10% and 32% of the Group's sales, respectively.

4. Thrustmaster

- ❖ **Thrustmaster achieved very strong growth of 42% over the year**, becoming a leader in the racing wheels market in the United States with more than 60% market share (*Source: NPD Group Inc, 2017*).
- ❖ **Thrustmaster released two new high-end racing wheels in nearly forty countries**: the brand launched the Gran Turismo®-licensed T-GT racing wheel, and the TS-XW RACER Sparco P310 Competition Mod for Xbox One® and Xbox One® X, which hit the market alongside the game Forza Motorsport® 7.
- ❖ **Joysticks: Thrustmaster released T.Flight Hotas One – the first joystick for Xbox One®** – in conjunction with the game Elite Dangerous, the leading space simulation title.
- ❖ **The brand signed strong new partnership contracts**: it expanded its partnership with Ferrari for gaming headsets, and inked a new deal with Sparco®, the world-renowned auto parts and accessories company.
- ❖ **Thrustmaster boosted its presence at the largest international trade shows** – in particular with Sony at all of the worldwide launch events for GT Sport®, giving the new T-GT a big boost as the game's official racing wheel.
- ❖ **The Group expanded the rollout of its products in Asia** (Hong Kong, China, South Korea, Japan) and Australia, allowing Thrustmaster to position itself as a major player in racing wheels and joysticks in these countries.
- ❖ **Thrustmaster achieved very strong sales growth in North America**, bolstering its commercial activities at leading retail chains (Best Buy, GameStop, Walmart...).

5. Hercules

- ❖ The brand is pursuing an innovation plan incorporating the latest design thinking and big data techniques to design and build its upcoming WAE and DJ product lines.
- ❖ Hercules released version 3.6 of its DJUCED™ 40° DJing software, featuring integration of the high-resolution Qobuz music streaming service, giving users access to more than forty million tracks.

Wireless speakers for smartphones and tablets

In 2017, Hercules:

- Implemented a design thinking process to build its future product lines.
- Started up two new DJ controller projects relating to its DJing range for 2018.
- Signed a partnership with the high-resolution Qobuz music streaming service, allowing for access to more than 70,000 high-res albums.
- Adapted its commercial and trade marketing policy in order to expand its distribution channels.

PROGRESS IN THE DESIGN THINKING PROCESS

The design thinking process resulted in the definition of a new product line, the aim of which is to allow users dreaming about becoming a DJ to achieve their goal.

The Group has now repositioned itself in “Projects” mode.

Hercules

THRUSTMASTER®

MAE
Wireless Audio Experience

DJUCED
BOOST YOUR MIX

In late 2017, Hercules launched a pack of LED wristbands to light up parties and nighttime festivities to the beat of the music, thereby becoming the must-have accessories for partying and dancing...

Extremely simple to use, the wristband attaches directly to the wearer's wrist and its built-in microphone detects sounds and vibrations in the vicinity, allowing the flashes of light to sync with the music and the rhythm of the tracks being played. This adds a unique interactive dimension sure to take any event to the next level!

The image shows the DJUCED 40° software interface. At the top left is the DJUCED logo with the tagline "BOOST YOUR MIX". Below it is a timeline graphic showing five years of growth: "5 YEARS" (yellow hexagon), "500K Hercules Controller Bundled" (orange hexagon), "106K Yearly Users" (orange hexagon), and "1.6M Yearly Sessions" (red hexagon). The main interface features two tracks: "ELECTROHOUSE VOL. 1" and "LOOPMASTERS DRUM AND BASS". Each track has a waveform, volume meters, and various controls like EQ and filters. The bottom left corner displays the DJUCED logo with the text "Complete professional DJ software included". The bottom right corner displays the Loopmasters logo with the text "included sample packs".

On September 21, 2017, the DJUCED teams released the new version 3.6 of the DJUCED™ 40° DJing software, featuring integration of the Qobuz music streaming service, and giving users access to more than forty million high-resolution tracks directly in the software.

Fully integrated into the DJUCED™ 40° interface, music from Qobuz plays just as intuitively as the DJ's other tracks, and can easily be mixed with music stored locally on the user's computer.

WAE

The WAE brand's DNA is based
in the worlds of sports and partying.

The WAE range is at the beginning of its repositioning process, which will bear fruit in terms of innovative new products to be launched in 2019.

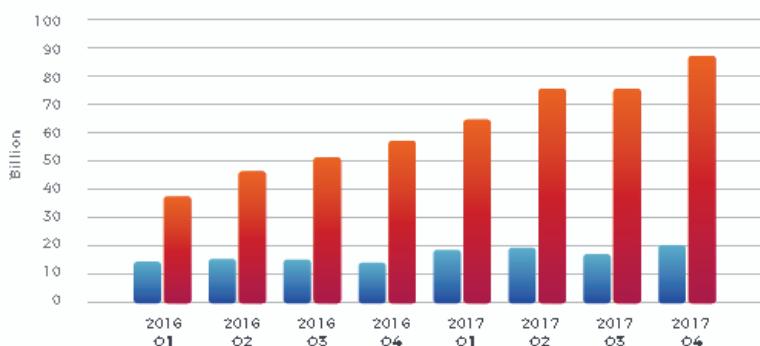

2017 was a very interesting year for the music industry and for streaming services in particular, which allowed the sector to achieve significant growth (Source: www.inaglobal.fr, 20/12/2017).

Spotify reached an important milestone, announcing that it now had 70 million users worldwide (Source: www.commentcamarche.net/news, 05/01/2018).

- ❖ In the United States, the streaming market grew by 50.3% in 2017 (Source: www.Buzzanglemusic.com).

In early January, Hercules announced its new partnership with the professional Freestyle BMX athlete Corey Martinez.

Corey is one of the most recognizable faces in the Freestyle BMX world. Corey has won several awards as Street Rider of the Year, though he spends most of his days traveling and filming killer videos that show off his creative street riding style.

Spending so much time out on the streets means he has to take his tunes with him, which is what makes Hercules WAE such a perfect fit for his lifestyle: shockproof, dustproof and waterproof, WAE speakers provide the perfect soundtrack to all his rides.

T300 Ferrari Integral
Racing Wheel ALCANTARA® Edition

Chinese launch in early March of the T300 Ferrari Integral Racing Wheel Alcantara Edition

- Includes: the detachable replica wheel of the Ferrari 599XX EVO
- 8:10 scale replica of the wheel of the 599XX EVO, officially licensed by Ferrari
- Large size: 11.8"/30 cm in diameter!
- Hand-stitched wrapping crafted of the same Alcantara® material imported from Italy as that used on genuine Ferrari wheels
- The wheel's structure is identical to automotive standards, includes a brushed metal central steering plate, weighs less than 2.6 lbs/1.2 kg (for super-responsive Force Feedback)
- 2 large wheel-mounted sequential paddle shifters (crafted of brushed metal, very high-end tact switches)
- 6 action buttons, 3-position rotary switch with push function in central position, 1 directional pad
- Detachable wheel featuring Thrustmaster Quick Release system

Thrustmaster has put in place a high-end add-on ecosystem aimed at passionate consumers, and those looking for an exclusive configuration with top-flight racing wheels and a complete range of dedicated accessories with high added value for the Group.

Prices range from €109.99 (Ferrari GTE Wheel Add-On Ferrari 458 Challenge Edition) to €399.99 (Ferrari 250 GTO Wheel Add-On).

Ferrari 250 GTO Wheel Add-On

With Ferrari celebrating its 70th anniversary in 2017, Thrustmaster's goal was to start launching exceptional racing wheels reflecting the history and image of the famed Prancing Horse automaker. The first is a limited edition of a particularly iconic model: the timeless 250 GTO wheel, more beautiful than ever at 55 years young.

Charm meets the strength of a richly symbolic history

The Ferrari 250 GTO Wheel Add-On, for PC, is an official Ferrari-licensed 8:10 scale replica (at 13 inches/33 cm in diameter) of the wheel of the Ferrari 250 GTO – one of the most legendary cars ever created, and three-time consecutive GT world champion from 1962 through 1964. Thrustmaster's model proudly sports all of the original wheel's features, first and foremost in terms of materials. The Ferrari 250 GTO Wheel Add-On boasts a metal faceplate and internal structure, an authentic chrome logo plate in the center, plus genuine high-quality wood covering the wheel's entire circumference with a black ring running through the middle: the resulting design is understated and sleek. All of these carefully-reproduced details transport the user right back to the 1960s. One only needs to test out the Ferrari 250 GTO in the game Assetto Corsa (available as part of the Ferrari 70th Anniversary DLC Pack), for example, to find oneself fully immersed in real vintage car racing sensations, with their inimitable panache.

TSS HANDBRAKE Sparco Mod

TSS HANDBRAKE SPARCO MOD: key points

1. Officially licensed by Sparco, the number 1 motor sports equipment maker in the world.
2. Two modes: handbrake / sequential shifter.
3. 1:1 scale replica gear knob (3.4"/85 mm in height).
4. Compatible with PC (Windows 10/8/7).

Progressive handbrake and sequential shifter by Sparco: master your drifting technique!

- Officially licensed by Sparco.
- 2-in-1 product: lets you change from the shifter (+/-) position to the progressive handbrake position and vice versa.
- 90% metal: steel and aluminum.
- High-grade components: technical bushings made in Germany, industrial-class flat coil springs with 8.8 lb/4 kg resistance.
- 1:1 scale replica gear knob (3.4"/85 mm in height): crafted of aluminum, from the Sparco rally and drifting range.
- Lever adjustable in height.
- H.E.A.R.T HallEffect AccuRate Technology™.

On January 25, 2018, Thrustmaster organized an event at the world-famous Lohéac rallycross track in order to unveil its new TSS Handbrake Sparco Mod to the press, influencers and drivers.

The event further cemented the very positive reception of Thrustmaster's racing product ecosystem by the specialized press.

[Lohéac event film](#)

THRUSTMASTER®

JOYSTICKS

In order to respond to the demand from the community of gamers, in 2017 Thrustmaster launched the first official flight simulation accessory for the Xbox One® console and Windows: the T.Flight Hotas One joystick, providing gamers with a totally unique experience.

Thanks to its flight sim expertise, Thrustmaster now lets users immerse themselves in the thrilling worlds of flight simulation on a whole new level. Thrustmaster is proud to be the first to have developed what the Xbox One® community was waiting for.

Thrustmaster will be focusing on the launches of flight and space-related games to generate new growth for its joystick sales.

In terms of its console joysticks sales, the Group achieved growth of 31.9% in value in the American market, and 24% in volume in relation to 2016 (Source: The NPD Group Inc., 2017).

T.Flight Hotas One

THE FIRST OFFICIAL FLIGHT SIMULATOR for Xbox One® and Windows, and recommended for Elite Dangerous on Xbox One. Ready for take-off on Xbox One:

- Optimized joystick mapping
- Plug and Play in space-sim games
- Full-size detachable throttle

Thrustmaster T.Flight Hotas One Flight Stick for Xbox One and Windows

T.Flight Hotas One, an officially-licensed joystick for Xbox One and Windows, provides a high level of realism: the stick includes five axes, fourteen action buttons, a rapid-fire trigger and a multidirectional hat switch (navigation/panoramic view), all of which are easily accessible. The throttle – detachable and full-size for easy maneuverability, even in virtual reality – provides super-responsive power. The dual rudder system can be engaged by rotating the handle (with an integrated locking system) or via the progressive tilting lever. The T.Flight Hotas One includes official buttons for the Xbox One console (Guide/View/Menu): access social features, switch between the game and the console, navigate through the console's menus, etc.

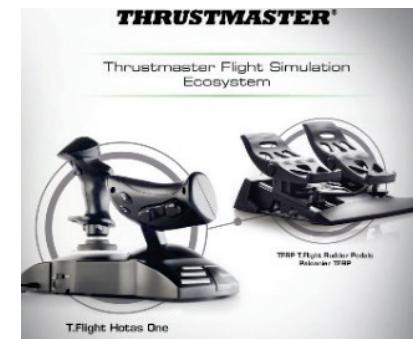

Key points:

- The first official joystick for Xbox One and Windows, with the official buttons for the Xbox One console.
- Ergonomic design perfectly adapted for all types of flight simulation (space adventure, modern combat, warplanes, civil flight).
- Detachable, full-size throttle for easy maneuverability, even in virtual reality.
- Adjustable handle resistance with wide hand-rest.
- Comprehensive flight gear: 5 axes + 14 action buttons + 1 rapid-fire trigger + 1 multidirectional hat switch (navigation/panoramic view).

THRUSTMASTER®

Thrustmaster Flight Simulation Ecosystem

Gaming headsets

Thrustmaster remains very active in the gaming headsets market, regularly employing its audio and gaming-related expertise to help out gamers by developing high-quality headset models.

As gamers are becoming increasingly accustomed to long gaming sessions in a variety of different genres, Thrustmaster's successful CPX range adds new models on a regular basis. Thrustmaster continues to make progress in this dynamic market segment.

Thrustmaster's new Ferrari license for gaming headsets represents an excellent opportunity. At the same time, Thrustmaster is continuing on with its licensing policy, launching new headsets in the first quarter of 2018.

THRUSTMASTER®

Thrustmaster recently launched two new gaming headset editions officially licensed for FAR CRY 5:

- The Y-300CPX Far Cry 5 Edition headset
- The Y-350CPX 7.1 Powered Far Cry 5 Edition headset

Thrustmaster is very pleased to present the new **Y-300CPX Far Cry 5** limited-edition gaming headset. Specially designed for the game Far Cry 5, this revolutionary headset was made possible by the brand's many years of audio expertise. Thanks to its 2"/50 mm drivers, the Y-300CPX Far Cry 5 Edition provides a high level of performance. The multifunctional controller lets gamers adjust the game's audio levels, along with the bass and microphone levels, for perfect customization possibilities.

AVAILABILITY: March 2018

WAE Outdoor 04Plus FM

The screenshot shows a review page from a website. At the top, there's a navigation bar with links like "HOME", "ABOUT", "REVIEWS", "FORUMS", "CONTACT", and "LOG IN". Below the navigation, the title "WAE Outdoor 04Plus FM review: The portable, go-anywhere speaker with an FM tuner" is displayed. To the right of the title is a "REVIEW OVERVIEW" section with a grid of five stars for various metrics: Build Quality, Options, Battery, Sound Quality, and Volume. A summary box at the bottom right contains the text: "About as much bang for the buck as you'll find at this price the speaker does anywhere you will and has more than enough clout to supply its soundtrack." A large, prominent "4" with a pink border is highlighted as the overall score.

Thrustmaster Y-350CPX 7.1 Powered – Hardware Review

December 12, 2017 - ThaMofO - No Comments Share ▾

Good: Sturdy, Look, Comfort

Bad: Old users might be bothered that the design is still pretty much the same as the old headsets

[El Chapuzas Informatico](http://www.elchapuzasinformatico.es), Spain (2017)

The screenshot shows a review page from Windows Central. At the top, it says "Windows Central" and "16 reviews, 21,091". Below that, the headline reads "The Thrustmaster TS-XW is an astonishing racing wheel for Xbox One and Windows 10". To the right, there's a "WindowsCentral.com has posted an excellent review on the TS-XW Racer last November, 16th." section. Further down, it lists "The main strengths of the TS-XW highlighted in this post are:" followed by a bulleted list: "Realism of the wheel", "High-end components: metal, carbon fiber...", "Detachable wheel, and Thrustmaster ecosystem", "Cooling System (T-M.C.E)", and "Realistic driving feelings thanks to «the excellent feedback»".

DJUCED
BOOST YOUR MIX

The Group's strategy is to employ strong partnerships. Globally-recognized licenses, combined with cutting-edge technologies developed by the Group's Research and Development teams, allow its products to move upmarket and promote international expansion. These drivers allow the Group to provide passionate consumers with products incorporating exclusive features, and a high-end hardware ecosystem (Depth Feedback technology in the T-GT racing wheel for the game Gran Turismo Sport, patents on the cooling system for Force Feedback motors used in racing wheels including the TS-PC Racer and on the Group's unique H.E.A.R.T. technology, Air Control in the Hercules DJControl Jogvision mixing controller).

Prospects for 2018
